

# ITALY DIVIDE<sup>®</sup> UNSUPPORTED ADVENTURE 2023

## INTRODUCTION

So far I've been mountain biking for more than 30 years in which I've seen all the developments and I myself have tested them all. Whether the breaking new was the suspension fork or the disk brake, whether the XC race or the Marathon I remember there's always been somebody saying ... "nobody need this!". That's exactly what happened ten years ago when I leaved bike racing to approach the randonee world and bikepacking.

I rediscovered the genuine "mood" of my first mountain bike attempts: a mix of adventure, unknown discovery and "scrape through art".

Probably bikepacking is the essence of "bike child dreamer" ... just taking your bike out for a ride with no goals and no rules is the healthiest way to get away from stress and everyday problems.

Some time ago, I started thinking about a bikepacking route through Italy, something like Tour Divide, but with the added value of the Italian excellences and beauties. Five years ago that intuition finally translated into reality: Italy Divide was born. An amazing trail through Italy, from Pompei to Torbole (Garda Lake).

Sometimes dreams come true. I hope to share mine with you!

## WHY ITALY DIVIDE ?

Are you still wondering why? Are you kidding me?

Italy is an unbelievable blend of history and arts, natural beauties and food excellences ... an adventure like this would be impossible elsewhere!

A reason to take part to Italy Divide that many participants share is presenting oneself the "WOW!" effect that means exploring the Beauty in its many aspects and discovering something you didn't even think could exist.

## ROUTE

The Italy Divide follows fast rolling gravel roads (Francigena/Eurovelo7) with quite technical mtb trails (Monte Baldo/Lessinia) in between to explore those wild and remote parts of Italy with a plenty mix of history. Starting from Naples the adventure will go through, among the others, Rome, Siena, Florence, Bologna, Mantova, Verona. The mix of pavel is amazing: tarmac, gravel, mountain bike. Every year we try to reduce the portage, You will be given a gpx file , just a few days before the start to prevent that someone rides the route before the start in order to take an advantage.

**The file is created with Garmin Base Camp and is compatible with all gps device.**

## UNSUPPORTED ADVENTURE

### 1) BEST BIKE RIDE ?

I think a mix between gravel and front mtb, with fast rolling tires. Do you love gravel bike? Better if fitted with almost 42mm tires, at least 2 bottle cages, even if it's easy to find water. Camping kitchen kit? ... nope! you can find a good place to eat whenever you need it ;)) The bivibag or tends are up to you; anyway, you can find nice accommodations in B&B (you'll been given the best options).

### 2) HOW MUCH TIME TO FINISH IT ?

It depends: it may vary from 4 to 6 days. Last year we started from Naples with 30 degrees and finished in Lessinia with a real winter storm with more than 30 inches of snow. Please note it is a real unsupported bikepacking or trailrunning adventure...enjoy it!
